Generals Buller, White, Methuen, Gatacre and almost all the Generals except MacDonald and Kitchener have social backing in London. What is needed more than anything else is a thorough-going reform which will open the army on democratic lines to the masses of the nation. There will be many technical improvements in the service and weak spots in the system of imperial defense will be straightened, but there is not likely to be any infusion of fresh blood into the army. The solidity of the Independent vote will be observed from the table given They voted their ticket nearly straight right around the Island, and herein lay their strength. The ticket carried itself by adopting this course, which was apparently thoroughly drilled into the party's adherents. Had they felt inclined to indulge in a few side candidates after the style of their Republican opponents, they very likely would have broken down their organization as effectively

THE WAY SOME WERE KNIFED. There has been a weeping and waiting and gnashing of teeth from the time the count closed just before dawn yesterday antil the present, says the Hilo Herald. Wilcoxism is rampant and the responsible tizens, the men who contribute to the upport of the country by taxation, feel

that drastic measures are necessary. When the hour for closing the polls arrived there were still a number of voters in line. Some one carried into the polling place a report that a copy of the Honolulu Bulletin had been received somewhere on the Island containing an opinion from Secretary Cooper to the effect that "if at the hour of closing that the color of the cooper to the cooper to the cooper that "if at the hour of closing that "if at the bour of closing the cooper to the coop there were persons at the polls willing to vote and who were deprived through no faults of theirs, the polls might be kept open until such votes were cast." A consultation of candidates was had and with their consent the polls were kept open until after 7 o'clock and the ballots put in sectarate boyes.

UNITED STATES PROGRAM To those who may not have had the Five Fighting Ships More Formid-

able Than any Others Designed Yet.

WASHINGTON, Nov. 3 .- As finally adopted, the Upited States naval increase program for 1961, involves the construction of thirty-two vessels of 151,600 tons displacement, or more than double that laid down in any preceding year. The list which Congress is to be asked to authorize is: Three 15,000 ton battleships, two 15,000 ton armored cruisers, six 2,000 ton gunboats, six 8,800 ton gunboats, ten 200 ton gunboats, three 15,000 ton colliers, one 7,000 ton repair ship and one 7,000 ton marine transport.

The Board of Construction has de cided to omit the torpedo boats, both surface and submarine recommended by the policy board of which Admiral Dewey is chairman, but the program in all other particulars conforms close ly to the initial project under discussion a week ago.

The program makers have confined their project to ships for offense, for police and for novel auxiliary purposes by the new conditions imposed upon the navy by the increasing importance of American interests in the Far East

The five fighting ships proposed are more formidable than any others of the same category yet designed. With the seventeen now building or authorized, and with the six battleships and two armored cruisers already in commission, they will give an offensive force of thirty ships.

The twenty-two gunboats are intended for police duty, principally in the Philippines although adaptable for service in China. The 200-ton gunboats will be the smallest war vessels, except torpedo boats, ever built for the United States navy, but they will be of the size recommended by all officers of experience in the Philippines as essential to preserving order among the small islands of the archipelago.

At 7:30 o'clock the count began and continued until nearly daylight with the result given herein. That there will be a contest seems probable on account of a double vlolation of the election laws which provide that the polls shall keep open from 8 a. m. until 5 p. m. and that immediately thereafter the counting of votes shall begin. The polls were kept open two hours later than the law allows and the count did not begin immediately after 2 o'clock.

... ROBERTS MAKES APPEAL.

LONDON, Nov. 3.-Lord Roberts sends from Pretoria a striking appeal to his countrymen to refrain from turning the welcome of the home-coming troops into a drunken orgy. He expresses sincere hope that the welcome will not take the form of treating to stimulants, and thus lend to excesses that will degrade those whom the nation delights to better and lawer the soldiers of the Queen in the eyes of the world, which has watched with undisguised admiration the grand with undisguised admiration the grand with undisguised admiration the grane work they have performed for their sovereign and country.

Lord Roberts explains that he that appears because of the distressing an discreditable scenes resulting from in

judicious friends specifing the parting soldiers by showing bottles of spirits into their hands and pockets.
